OBJECTIVE

To utilize my experience in full-stack web development, background in AI, and communication and problem-solving skills to collaborate on developing innovative and intelligent solutions while continuing to learn and grow in a productive environment.

EDUCATION

FAST National University of Computer and Emerging Sciences

Bachelor of Science in Computer Science

Completed 5 semesters; awarded Dean's List of Honours in each semester.

CGPA: 3.87/4.00

Karachi, Pakistan

2023 — Present

Beaconhouse School System

A-Levels, Computer Science

Graduated with 4A*s

Karachi, Pakistan

2021 — 2023

TECHNICAL SKILLS

- **Programming Languages:** Python, JavaScript, TypeScript, C, C++
- **Web Development:** React, Next.js, Node.js, Express, Tailwind CSS, HTML, CSS, REST API
- **Core Concepts:** Artificial Intelligence, Data Structures & Algorithms, OOP, Operating Systems
- **Databases:** PostgreSQL, MySQL, MongoDB
- **Tools:** Git, VS Code, WSL, Vercel, Docker

PROJECTS

Breedit – A Reddit Clone

Oct-2025 — Dec-2025

- Coordinated a team of 3 developers, ensuring the project remained on schedule
- Built a full-stack Reddit clone using Next.js, TypeScript, and Tailwind CSS
- Integrated authentication using Google OAuth
- Managed a PostgreSQL database using Neon
- Deployed on Vercel: dbs-project-six.vercel.app

Crop RS – A Crop Recommendation System

Nov-2025 — Dec-2025

- Built an AI model to recommend optimal crops from soil and environmental data
- Fine-tuned a ResNet50 CNN model to classify soil type from images
- Utilized an XGBoost model to analyze features and generate predictions
- Filtered the recommendations by using domain knowledge to only keep the most suitable ones

COMPETITIONS & ACHIEVEMENTS

Data Science Competitor

Apr-2026 — May-2026

Kaggle Playground Series (Season 6, Episode 4)

- Competed globally in the “Predicting Irrigation Need” machine learning challenge among 4,300+ participants.
- Developed and tuned a predictive model to optimize agricultural irrigation schedules based on environmental data.
- Achieved a high-accuracy evaluation score of 0.96491, securing a global leaderboard rank of 1966 out of 4316.
- Applied feature engineering and data preprocessing techniques in Python to improve model generalization.

EXPERIENCE

Office Assistant

2020 — Present

International Trading Company

- Handled daily administrative tasks, including writing client quotations and billing statements.
- Prepared commercial sales tax invoices and drafted delivery challans to track product dispatches.
- Maintained physical and digital transaction records to help keep office files organized.
