PROFILE

Customer-focused professional with a progressive background spanning customer support, team leadership, business analysis, and sales within the tech and digital services industry. Experienced in managing the full client lifecycle, from building rapport and resolving issues to identifying needs and closing deals on web, mobile app, marketing, and software solutions. Combines strong relationship-building and problem-solving skills with a solid understanding of B2B sales, SaaS, and lead generation, allowing for both high client satisfaction and measurable revenue contribution. A foundational background in design and client success adds a unique advantage: the ability to align technical and creative solutions with real business goals. Known for clear communication, consistency, and a collaborative approach that supports long-term client retention.
