

ALLAH DITTA MOHLA

Performance Marketing Manager | Paid Media Growth Specialist

Faisalabad, Pakistan | allahdittamohla9@gmail.com | +923303835509

PROFESSIONAL SUMMARY

Results-driven Performance Marketing Manager with 5 years leading paid media strategy across Meta, Google, and TikTok Ads for agency and direct clients in the GCC and Southeast Asian markets. Proven record of owning campaigns end-to-end — from account architecture and budget allocation through creative testing and conversion tracking — and converting that ownership into repeatable, sustainable ROAS. Directed budgets exceeding \$30K/month and delivered ROAS as high as 6.5x, backed by disciplined process rather than one-off wins. Comfortable managing multi-market, multi-platform portfolios and translating performance data into decisions stakeholders can act on.

KEY ACHIEVEMENTS

- **6.5x ROAS** — Meta Ads fashion e-commerce program at Greendot Media (\$3,000 spend → \$19,500 revenue in 8 weeks)
- **5.3x ROAS** — cross-market paid media program at Nexus Digital Media (\$30K spend → \$159K revenue)
- **34% CPL reduction and 38% CPA reduction** through audience and bid strategy refinement
- **42% further CPL reduction** via SKAG (Single Keyword Ad Group) restructuring on Google Ads
- **\$50K+/month** in combined ad budgets directed across Meta, Google, and TikTok Ads

CORE SKILLS

- **Paid Media Platforms:** Meta Ads (Advantage+ Shopping, Conversions API), Google Ads (Search/Display/Performance Max), TikTok Ads
- **Analytics & Tracking:** GA4, Google Tag Manager, Meta Pixel & Conversions API implementation
- **Campaign Strategy:** Full-funnel architecture (prospecting, retargeting, upsell), SKAG restructuring, creative testing, audience segmentation, budget scaling
- **Budget & Team Management:** Directed \$50K+/month multi-platform budgets, weekly performance reviews, cross-functional reporting to stakeholders
- **Markets:** GCC (UAE, KSA, Qatar) and Southeast Asia

- **Result:** Directed a paid media program generating \$159K in revenue on \$30K ad spend (5.3x ROAS)
- Reduced cost-per-lead by 34% and cost-per-acquisition by 38% through audience and bid strategy refinement
- Cut cost-per-lead a further 42% via Single Keyword Ad Group (SKAG) restructuring on Google Ads
- Directed \$50K+/month in combined ad budgets across Meta, Google, and TikTok for Dubai-based clients spanning real estate, e-commerce, beauty, and automotive

Performance Marketer | Greendot Media — Faisalabad

Case Study — Meta Ads, Fashion E-commerce: 6.5x ROAS

- Objective: Purchase conversions | Campaign type: Advantage+ Shopping with full-funnel retargeting | Duration: 8 weeks
- **Result:** Turned \$3,000 in ad spend into \$19,500 in revenue (6.5x ROAS) while cutting Cost per Purchase by ~35%

- Audited prior campaign performance, site analytics, and purchase behavior, then restructured the account into three stages: prospecting (broad + 1–3% lookalike audiences), retargeting (site visitors, add-to-cart, initiate-checkout), and existing-customer upsell
- Implemented Meta Pixel and Conversions API for accurate purchase tracking and optimization signal quality
- Ran a 2-week creative testing sprint across UGC video, lifestyle video, carousel, and static formats — paused underperformers on CPA/CTR/ROAS and reallocated budget to winners
- Scaled budget from a \$50/day base in 15–20% increments every 3–4 days to protect the learning phase while growing spend profitably
- Ran weekly optimization cycles: budget reallocation to top ad sets, creative refreshes to combat fatigue, exclusion of converted customers from acquisition audiences, and placement optimization
