Product Designer focused on reducing friction in digital experiences through clear interaction design and strong visual systems. Experienced in UI/UX, design systems, and workflow automation to improve speed, clarity, and usability. Bridging design and automation by building tools that scale and optimize design workflows.

SKILLSET

Product Design: UX Strategy, Interaction Design, Wireframing, Prototyping, Design Systems

Tools: Figma, Illustrator, Photoshop, After Effects

Technical: Figma Plugins, Design Automation, HTML/CSS/JS (Basics)

Visual: UI Design, Motion Graphics, Icon Design

EXPERIENCE

Product Designer - Intern @ Internshala, Gurugram

Sep 2025 - Present

- Designed scalable UI components and campaign assets across web and mobile, improving consistency across product and marketing interfaces
- Collaborated with product and marketing teams to deliver scalable UI systems and reusable components
- Developed custom Figma plugins to automate workflows, reducing repetitive design effort and improving efficiency
- Created animated UI elements and micro interactions to enhance user engagement

Freelance Graphic Designer & UI/UX Designer @ Upwork

June 2022 - Sep 2025

- Delivered 15+ projects across UI/UX, SaaS dashboards, and branding for international clients
- Designed scalable interfaces and design systems for web applications
- Maintained consistent 5-star feedback by delivering high-quality, user focused solutions

PROJECTS

Checkout Experience Optimization | Figma, Prototyping, Wireframing

- Designed a frictionless checkout flow for quick commerce, reducing cognitive load and improving action clarity
- Improved clarity of pricing and streamlined user actions through contextual UI patterns

Project Tracking Dashboard | Figma, Prototyping, Wireframing

- Designed a structured dashboard to improve task visibility, communication, and workflow efficiency
- Reduced information clutter and improved decision speed through hierarchy and grouping

Product Discovery Experience | Figma, Prototyping, Wireframing

- Designed a fast and intuitive discovery flow to help users find products quickly in low attention environments
- Reduced decision friction by enabling faster product discovery through simplified filtering and navigation

Design Workflow Automation Tools | FastAPI, Github, Render, ChatGPT

- Built internal tools and Figma plugins to automate repetitive design tasks, improving efficiency and consistency
- Reduced repetitive manual work by automating asset generation, formatting, and export workflows through custom tools

EDUCATION

B.Tech (Computer Science Engineering)

CGPA: 7.22

GJUS&T, Hisar | 2025
