

Waleed Bin Khalid

ولید بن خالد

I'm Waleed Bin Khalid, a creative designer with over 6 years of experience shaping brands and digital visuals that feel purposeful and premium. I work across brand identity, visual systems, and social media design, helping businesses express who they are and where they're headed. From collaborating with international teams in Australia and the US to leading creative direction for architecture and high-end brands, my focus is always on clarity, consistency, and impact. I believe great design isn't just about how it looks it's about how it's felt, remembered, and valued.
