OBJECTIVE

Curious and motivated computer science student with a 3.81 CGPA, skilled in high-performance C/C++ and CUDA programming. Pursuing a systems programmer role to optimize and build low-level core architectures.

EDUCATION

National University of Computer & Emerging Sciences	Karachi
Bachelor of Science, Computer Science	Aug 2023 – Present
• CGPA: 3.81/4.00	
Commecs College	Karachi
Higher Secondary School Certificate, Pre-Engineering	Aug 2021 – Sep 2023
• Percentage: 80.9%	

TECHNICAL SKILLS

Programming Languages: C, C++, Python
Web Technologies: HTML, CSS, JavaScript, TypeScript, React
Developer Tools & Frameworks: CUDA, Bash, VS Code, Git, LaTeX, Docker, Notion, CMake
Databases: PostgreSQL, MongoDB, MySQL

PROJECTS

Parallel Pixels
- Created a multi-threaded image filtering pipeline using POSIX threads in C, achieving significant speedup as compared to sequential processing. - Chunked images to be filtered on separate threads. - Applied filters on images such as blur, posterize, and greyscale. - Reconstructed chunked images while ensuring correctness. - Handled overall synchronization and threading issues.
Tensor library using CUDA
- Wrote and optimized CUDA kernels for core tensor operations. - Created GPU Runtime and Exception Handling. - Managed GPU memory and synchronization. - Developed a GPU device abstraction layer to expose clean tensor APIs for high-level code. - Designed a numpy-like interface for tensor operations.

EXPERIENCE

Internship	Jun 2025 – Jul 2025
State Bank of Pakistan	Karachi
- Collaborated with app-development team to troubleshoot RAAST payment system to ensure an error-free user experience. - Handled and cleaned financial datasets using SQL to prepare them for analysis.	
Content Writer	Mar 2020 – Feb 2023
Dotinfy Solutions	Karachi
- Performed Search Engine Optimization (SEO) through keyword-oriented strategies to boost content ranking in search results. - Researched a wide range of topics to create captivating articles. - Corrected articles for grammatical errors, omissions, and language to ensure quality and consistency.
